## RECOMENDACIONES DE USO/RECOMMENDED USE:

Nuestros productos han sido concebidos para diferentes usos siendo clasificados mediante ensayos técnicos en seis grupos de acuerdo con su capacidad de resistencia a la abrasión, al desgaste, al ataque químico, etc.

LOS MODELOS PRODUCIDOS SON CONTROLADOS A TRAVÉS DE LOS ANÁLISIS EFECTUADOS EN LABORATORIOS EXTERNOS ACREDITADOS Y EN NUESTROS PROPIOS LABORATORIOS.

- D** Zonas de tránsito medio, con calzado normal. Aconsejados para todas las estancias de una vivienda privada (cocinas, vestíbulos, pasillos y terrazas), así como despachos, oficinas y lugares de uso similar. Resistencia media a la abrasión.
- E** Para zonas de tránsito regular, como locales comerciales, hoteles, salas de exposición y tiendas. Resistencia relativamente fuerte a la abrasión.

Our products have been designed for different uses and, after technical tests, they have been divided into six groups, depending on their resistance to chemical products, abrasion, etc.

THE RESULTS OF THESE TESTS HAVE BEEN SPECIFIED IN EACH ONE OF THE MODELS AND HAVE BEEN OBTAINED ACCORDING TO THE ANALYSIS CARRIED OUT BY THE EXTERNAL LABORATORIES AND BY OUR OWN LABORATORIES.

- D** For medium transit areas with normal footwear. Recommended for all areas of private home (kitchens, entrances, corridors and terraces), as well as offices, consulting rooms and other places of similar use. Medium resistance to abrasion.
- E** For areas of regular transit, such as commercial zones, hotels, exhibition rooms and shops. Fairly high resistance to abrasion.

## ESPECIAL COLOCACIÓN GRANDES FORMATOS: SPECIAL ARRANGEMENT FOR LARGE FORMATS:

Para la instalación de grandes formatos (lado mayor de 60 cm.) y/o rectangulares se recomienda el uso de sistemas nivelados como campanas o cuñas para garantizar una correcta colocación.

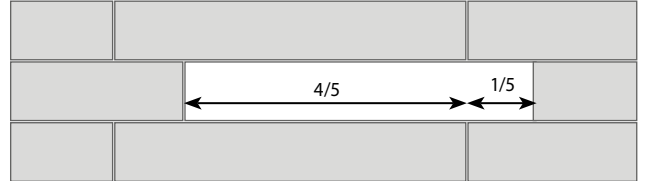

El sistema de autonivelación se caracteriza por ventajas como el ahorro en tiempo de colocación o el autonivelado entre las piezas para conseguir una colocación totalmente plana.

La colocación a rompejunta de grandes formatos y/o rectangulares nunca debe realizarse en la mitad de la pieza. Se aconseja que para mantener la estética y evitar dificultades en su instalación, la colocación a rompejunta no supere el 20% del lado sobre el que se aplica.

For large (largest side of 60 cm.) and/or rectangular formats, we recommend the use of levelled systems such as bells or wedges in order to guarantee a proper arrangement.

The self-levelling system has some advantages such as saving time in arranging the pieces or the self-levelling among pieces in order to obtain a totally flat arrangement.

When laying rectangular formats discontinuously, never do so in the centre of the piece. In order to maintain the aesthetic appearance and avoid difficulties in installation, we recommend that discontinuous laying does not exceed 20% of the side to which it is applied.
